

Opening Of
80th Congress
In Uproar On
Bilbo Battle

Washington, Jan. 3 (AP)—By a party line vote of 244 to 182, Rep. Joe Martin (R-Mass.) formally was elected speaker of the House today.

By JACK BELL

Washington, Jan. 3 (AP)—The 80th Congress—first controlled by Republicans in 15 years—convened today with the Senate in an uproar over seating Senator Bilbo (D-Miss.) and the House ready for business.

Last minute efforts to compromise the Bilbo controversy failed when 14 Democratic Senators organized for "extended debate" against a Republican-led move to bar the Mississippian from the chamber.

The White House announced President Truman would deliver his State of the Union message at a joint session in the House chamber Monday, at 1 p. m. (EST), if both houses are organized then.

Tax Measure First

The number one measure offered in the House was the Republican plan to cut individual income taxes. Instead of the proposed 20 per cent reduction "across the boards," it provides for a 20 per cent tax cut on the first \$300,000 of income and a 10.5 reduction on income above that figure.

Hundreds jammed capitol corridors hours before the opening gavel fell, seeking admittance to Senate galleries to hear the scrap over Bilbo. Comparatively, calm reigned in the House galleries.

The first Republican-controlled Congress since 1931 convened promptly at noon.

See "Considerable Debate"

In the House, Ralph Roberts, retiring doorkeeper, rapped the gavel signalling the start of a potentially historic session. A prayer by the Rev. James Shera Montgomery was the first order of business.

Secretary Leslie L. Biffle banged the gavel in the Senate, where the prayer was said by Chaplain Frederick Brown Harris.

Southern Democrats made it plain they will resist by talk of the effort of Republicans and some Democrats to prevent Bilbo, who has been accused by the Senate War Investigating Committee of using his office for personal gain in dealings with war contractors, from taking his seat today.

Ready With Cloture

Senator McClellan (D-Ark.) told a reporter there will be "considerable debate."

Senator Taft (R-Ohio), chairman of the Republican steering committee, retorted "we have a way to beat that."

"Cloture," he explained to reporters.

Cloture is a rule limiting debate. It requires a two-thirds vote for adoption.

Senator Ferguson (R-Mich.) had a resolution ready which would bar Bilbo now and set his case for hearing January 6.

Bilbo himself was on the floor as the Senate opened the 80th session with prayer. He conferred with Senator Ellender (D-La.) and other supporters.

Prayers For Congress

With only two holdover members reported absent, the Senate counted at 30 Democrats and 28 Republicans present as Biffle called for the administration of the oath alphabetically.

Ferguson objected and moved that Senator Vandenberg (R-Mich.) be sworn in first. Vandenberg is expected to become the Senate's presiding officer. Senator Overton (D-La.) one of Bilbo's supporters, immediately rose to announce that he would debate Ferguson's move.

Most of the 435 members of the House were in their seats at the drop of the first gavel.

Religious leaders gathered in a small church near the capitol and prayed for the new Congress.

They asked divine guidance for members of Congress in acting "on the high plane where self-seeking gives place to self-discipline and ambition becomes that hunger and thirst after righteousness which has its reward in fullness of life."

Bilbo Called Second

In the Senate, Biffle ruled that senators should be sworn in singly, in alphabetical order. Senator Baldwin (R-Conn.) thereupon was given the oath. Bilbo's name came next.

Senator Taylor (D-Idaho) immediately offered a resolution which would prevent the Mississippian's seating. The resolution charged that Bilbo's activities were "tainted with fraud and corruption." It would refer the Bilbo case to the new rules committee.

Bilbo, dressed in a brown suit and wearing a red tie, stood beside the rostrum with Overton as the clerk read Taylor's resolution.

Antarctic Expedition Plane
Missing 1,200 Mi. Below Horn

Washington, Jan. 3 (AP)—A P.B.M. Mariner seaplane with eight persons aboard is overdue on an exploratory flight from the navy's antarctic expedition, the navy reported today.

The plane took off from the seaplane tender U. S. S. Pine Island at 5:45 a. m. (EST) December 30. It was scheduled to return at 3:45 p. m. the same day, but had sufficient fuel for 11 additional hours of flight.

The last report from the plane was received at 7:25 a. m. (EST) on December 30, at which time it was about 250 miles south of the Pine Island.

Previous reconnaissance flights had reported open water in that area and the navy expressed hope the plane had made a safe landing. Search and rescue operations have been hampered by bad weather. Outlook For 1947

County Agent Predicts
Successful Year For Alert
Farmers Of Adams County

Farmers will have to raise their standards of quality to meet the competition—but nonetheless Adams county farmers can look forward in general to another successful year during 1947.

That was the opinion of County Agent M. T. Hartman in an interview today.

Prices should remain high until next fall for most farm products, Hartman added. By that time however supply should have equalized demand and prices are expected to dip for "run-of-the-farm" products. Quality products on the other hand should by then receive more of a premium in regard to price than they do now, Hartman predicted.

"We have lived through a period where quality did not count because of the great need. In order to secure volume, little was said about quality. To insure that quality, there were no premiums offered under the OPA for quality foods. That period however is now a thing of the past and in planning crops for 1947 the farmers should seek full production consistent with maximum efficiency and should not figure on continued "all-out" production regardless of cost and quality.

14TH ANNUAL
POLIO CAMPAIGN
PARTY JAN. 30

The annual financial campaign of the Adams County Infantile Paralysis fund was scheduled to get underway next week with the drive to be climaxed by a dance at the Hotel Gettysburg on January 30.

Mrs. Joseph E. Codori, chairman of the drive said today that letters to the school children will be sent out this coming week and that community chairmen will begin their drive starting in the next few days.

Sponsor tickets to the dance will continue at \$5 or more per couple while general admission to the annual ball will be \$1 per person, M. David DeTar, president of the county organization said.

To Divide Receipts

The dance, once known as the President's ball and more recently as the Adams County Infantile Paralysis Fund party, and the traditional March of Dimes will be two means to raise funds during the 1947 drive. It will be the 14th annual ball.

With a new case of infantile paralysis in the Littlestown area within the last month and with the possibility of next summer bringing new cases of the dread disease, the county organization expects this year's campaign to be as successful as have been the drives in the past. One half of all funds collected remain in the county for work here while the other half goes to the National Infantile Paralysis Fund for work on a national scale including the backing of research seeking to find more improved ways of preventing and curing the disease.

County Committee

Heading the executive committee here are Mr. DeTar, Mrs. Codori and Fred G. Pfeiffer, treasurer of the organization. ROBERT L. SCOTT
IS PROVISIONAL
HEAD OF GUARD

Captain Robert L. Scott, Gettysburg R. 2, onetime enlisted man in the old National Guard unit here and a veteran of five years service with the army in World War II, has been named provisional commander of the new National Guard unit being formed in the county at the present time.

Captain Scott was selected Thursday evening for the post at the opening of a recruiting drive which officials hope will end with the formal recognition by the federal government of Troop A, 104th Armored Cavalry here.

Scott, who served for two years with the auto repair unit of the National Guard here, was called into service when the county company entered for active duty early in 1941. In 1942 he received his commission as a second lieutenant while stationed in Wyoming. He was promoted to captain in 1944. On June 6, 1944, D-Day, Scott celebrated his 30th birthday and the fact that he had, at that time, been overseas for one year.

Army Pay Schedule

A graduate of Gettysburg high school in 1933 he was for three years an usher at the local theaters. He began his military service with the old National Guard on January 16, 1939.

A year ago his terminal leave ended and he is now in the officer reserve.

His appointment was made by Col. W. W. Brame, Harrisburg, organizational officer of the 104th Pennsylvania Cavalry, who met Thursday night with those interested in forming the new unit. About 15 members of the local State Guard unit expressed their desire to join the new National Guard troop Thursday night but it was explained to them by Colonel Brame that they cannot enlist until their present enlistments in the State Guard expire.

A number of other men, mostly veterans of World War II, were also present at the first recruiting meeting for the new unit.

Colonel Brame explained also that the regular army pay scale will be used for the National Guard and that the members of the guard will receive a full day's pay for their weekly two-hour drill.

Plan Recruiting Drive

Heads of the new organization and the committee sponsoring recruiting for the troop will attend a session at Harrisburg Tuesday to obtain final details on the plans for the county National Guard unit, Captain C. Arthur Brame, head of the recruiting committee, said today.

After that meeting, the members of the committee and provisional leaders of the guard unit plan to start a recruiting campaign in Gettysburg, Littlestown, McSherrystown, Hanover, New Oxford, East Berlin, Bendersville, Biglerville, Fairfield, York Springs and other communities in this section. Posters, speakers and guardsmen will take part in the recruiting campaign. Present plans call for Saturday night meetings in various communities with men interested in joining the guard and for meetings with seniors in high schools to interest them in the unit.

GOVERNOR BELL
PLUNGES INTO
CHIEF'S DUTIES

By LEONARD A. UNGER
Harrisburg, Jan. 3 (P)—Governor John C. Bell, Jr., wasted no time today in plunging into his new duties as Pennsylvania's 33rd—and newest—chief executive.

Sitting at the gubernatorial desk vacated by U. S. Senator-elect Edward Martin, Bell tackled, as his first job, a mounting pile of congratulatory messages which followed his inauguration yesterday to a 20-day term, shortest in Keystone state history.

The 54-year-old former lieutenant governor, elevated to fill Martin's unexpired term, declined to discuss with reporters his proposed course of action in the interim until the inauguration of Governor-elect James H. Duff January 21.

No Important Changes

But he intimated in his inaugural speech that there would be little deviation from the policies of the Martin administration, declaring: "I hope and expect to turn over the state of Pennsylvania to Governor Duff in the same splendid condition in which it now is."

Chief Justice George W. Maxey of the state Supreme Court administered the oath of office to Bell before a overflowing throng in the flower-bedecked hall of the House of Representatives.

"I appreciate the great honor of becoming governor of Pennsylvania. Our state has the finest people in this country and I shall administer the government in their interest and for their welfare," he said after being sworn in at 3:40 p. m.

"Resign"

Three minutes earlier, Martin said "I resign" and submitted a copy of his resignation, for filing, to Charles M. Morrison, secretary of the commonwealth.

"After due deliberation, and actuated solely by a sincere desire to best serve my fellow citizens of Pennsylvania and all my fellow Americans, I have decided to assume the duties required by my election as U. S. senator immediately upon the organization of the 80th Congress," Martin asserted.

The former governor added that he gave serious consideration to the Senate's policy with regard to seniority and its "bearing on the service which could be rendered our commonwealth."

Off For Washington

Martin departed for Washington after the ceremony to be on hand to take the oath of office as U. S. senator at noon today.

His last official act as governor was the presentation of the Pennsylvania meritorious service medal to George I. Bloom, his secretary, "in recognition of his unusual service to Pennsylvania."

Governor-elect James H. Duff presided at the brief but colorful inaugural ceremony.

After the services, the Bells moved into the executive mansion overlooking the Susquehanna river and entertained a group of friends at an informal tea.

Bell before his election as lieutenant governor in 1942 on the same Republican ticket with Martin, was secretary of banking in the cabinet of former Governor Arthur H. James.

The Wynnewood attorney also served as assistant solicitor and assistant district attorney in Philadelphia.

Miss Bullitt To Wed Philadelphia Biddle

Washington, Jan. 3 (P)—Miss Anne Moen Bullitt, daughter of William C. Bullitt, former U. S. ambassador to France and Russia, will be married here next May 31 to Nicholas Duke Biddle of Philadelphia.

The engagement was announced last night by Bullitt.

Miss Bullitt, 22, married Staff Sgt. Casper W. H. Townsend, Jr., in February, 1944, but that union ended in divorce.

Biddle, a World War II paratroop captain, is the son of Col. Anthony J. Drexel Biddle, Jr., and Mrs. Mary Duke Biddle, prominent Philadelphia philanthropist.

Miss Bullitt, then only 15, was her father's hostess while he was ambassador to France. Previously she had accompanied him to Russia.

Davis Takes Job As Langer's Assistant

Washington, Jan. 2 (P)—Former U. S. Senator James J. Davis announced he had accepted "temporarily" a position as assistant to Senator Langer (R-N.D.) but said it would only be "a part time job" since his work as director general of a fraternal organization would prevent him from devoting his full time to the post.

Langer said he would make an announcement later today about Davis, a Republican and former Secretary of Labor who was defeated in the 1944 elections by Senator Myers (D-Pa.).

Although Davis said he did not know the exact nature of his duties, salary or title of the new post, he told a reporter yesterday he "assumed" he would be administrative assistant, a \$10,000 a year position created in the Congressional reorganization bill.

PARTIES REPORT
ELECTION COSTS

Washington, Jan. 3 (P)—Both the Republican and Democratic national committees came through the 1946 election campaigns with cash in the bank.

But their financial reports to Congress showed today that:

The Democrats began the new year with \$589,606 less than they started the old one.

The Republicans not only won the election but boosted the size of their bank account.

Regular reports of contributions and expenses must be filed with the house clerk by political organizations.

George Killian, treasurer, said the Democrats began 1946 with a bank balance of \$731,294, took in \$1,147,871, paid out \$1,737,677 and wound up on December 31 with \$141,483.

Ray R. Dobson, assistant treasurer of the Republican committee, listed contributions of \$1,097,404 and expenses of \$917,728 for last year, leaving the GOP \$279,676 to the good.

Just how much the Republicans now have in the till was not disclosed, as Dobson did not report what the committee had in the bank at the start of 1946. The Republicans reported only contributions for the last two months of the year. Earlier donations were reported previously. The law imposes a \$5,000 limit.

FIRM FILES SUIT
IN RETALIATION
FOR UNION ACTS

Pittsburgh, Jan. 3 (P)—Charging employees with work slowdowns, the Rockwell Manufacturing Co. has filed suit in federal district court here for \$15,000,000 as a comeback on the disputed work week issue raised by unions in portal-to-portal pay suits.

The suit was filed late yesterday in the midst of a wave of portal pay suits brought against employers by individuals and unions.

Col. W. F. Rockwell, head of the meter and valve manufacturing firm, called the suit "unprecedented" and added the company sought to recover from losses suffered as the result of employees' refusal to "apply themselves to production."

New "Portal" Suits

The suit said workers "conspired together with the intent of limiting production of manufactured items," and that employees "conspired to limit piece work production to an arbitrary figure selected by them."

Named defendants in the suit were four men who last week filed a \$6,000,000 portal-to-portal retroactive wage and damage claim against the company.

Other portal-to-portal suits, totaling nearly \$22,000,000 were filed in Pittsburgh while 33 suits, seeking \$38,000,000 were filed by the CIO-United Steelworkers in federal district courts in Scranton and Philadelphia against corporations in eastern and central Pennsylvania.

Accent On Offensive On Courts War Result

New York, Jan. 3 (AP)—Many of the nation's college basketball coaches this season are operating under the old theory that a good offense is the best defense and offense is a direct result of the war.

"It's a natural aftermath of the war period," said Drake today in commenting on the trend toward the attack which has found a large percentage of teams trying simply to outscore their opponents with less thought being given to a planned defense.

Drake discussed various aspects of the court game while he and his squad, which knocked New York City College out of the undefeated ranks here Wednesday night, awaited the departure of their chartered plane.

Springfield Loses To Hershey Bears

(By The Associated Press) The Hershey Bears once more hold the over-all lead in the American Hockey league, topping not only the east but also two points ahead of the Cleveland Barons, leaders of the western division.

The Bears victimized fourth-place Springfield of the eastern half 5-2 at Springfield last night in the league's only scheduled game. The win put the Bears an even 20 points ahead of their nearest rival in their own division, the New Haven Ramblers. The Bears now have won 23, lost seven and tied four for a 50-point total.

Gordon Bruce scored the hat trick, his three goals coming in the first and second periods as the Bears made their final appearance of the season in the Massachusetts city. Bruce also was credited with an assist.

Charley Trippi To Play On Pro Grids

New Orleans, Jan. 3 (AP)—Georgia's famed Charley Trippi indicated here last night he plans to enter professional football.

Speaking at a banquet honoring the Redemptorist high school football team, Trippi, advocating "education first and football second," remarked:

Trippi shared the spotlight with another All-America, Claude "Little Monk" Simons, star of the first Sugar Bowl game here.

Sports Roundup

By HUGH FULLERTON, Jr.

New York, Jan. 3 (AP)—The colleges which support football teams (or vice versa) agree in principle on the questions of amateurism etc., they've been asked about since last summer, but there's liable to be a heck of a ruckus when the NCAA leaders get together next week and try to agree on practices. . . . That's the guarded opinion indicated by one of those leaders who has seen all the answers. . . . One conference, for example, holds "certain reservations" about giving room, board and tuition to athletes; another goes for grants-in-aid to cover differences in tuition between state-supported and endowed colleges; other schools admitted they paid players but didn't like it. . . . Separating the sheep from the goats will be quite a trick, but whether or not the goats pull in their horns, this gent figures it will be a triumph for the forces of righteousness to know who's who. . . . The forces of economy my benefit, too.

SHORTS AND SHELS

The Cincinnati Reds have an oversupply of catchers, in case you're interested in hot-stove dealing. Besides last year's trio, Mueller, Lamanno and Lakeman, they have a youngster named Jack Warren coming up from Columbia, S. C., who can catch hit and play outfield on occasion. He likely will stick if another catcher is traded. . . . Ray Evans, Kansas U. basketball and football ace, is having some trouble deciding what to do with his one year of athletic eligibility, what with only nine hours to go for his degree in business administration. . . . Jersey Jones still is moaning because Nat Rogers, Mike Jacobs' matchmaker, hasn't even tried to bring Charley Burley and Jacob Lamanna together while he's running "St. Nick shows" in the Garden. . . . Winston Churchill, Texas Tech basketball player, has a feud on with hotel clerks. Every time he gives one of them his name, the clerk replies: "Yeah, and I'm Joe Stalin."

CCNY RESENTS COACH'S SLUR

New York, Jan. 3 (AP)—City College of New York wants no athletic relations with Wyoming University as long as Everett Shelton coaches basketball at the Rocky Mountain area school.

C.C.N.Y.'s seven-man faculty athletic committee announced the severance of relations yesterday after hearing city's coach Nat Holman report on an incident which almost led to blows between the rival coaches at the C.C.N.Y.-Wyoming game in Madison Square Garden last Saturday night.

Holman charged Shelton had directed anti-semitic remarks at several C.C.N.Y. players in the heat of the contest. Shelton later denied he had intentionally slandered any nationality or religion.

In making its decision, the faculty group clearly indicated its action is not directed against Wyoming as an institution but rather against Shelton.

SEEK DIAMOND PARKS AS GRIDS

Columbus, O., Jan. 3 (AP)—A proposal that American Association baseball parks be leased to the National football league for a subsidiary (farm) league and exhibition games next fall, will be considered at a meeting in New York next week.

Frank Lane, president of the American Association, said yesterday he would meet with Bert Bell, commissioner of the National Football league, on next Sunday to discuss the matter. Bell, in Harrisburg, Pa., said he understood the meeting would be held next Monday.

Lane, who is in Florida, announced the meeting through association headquarters in Columbus.

An unsuccessful attempt was made last spring to establish a football farm circuit in American Association cities. The cities are Columbus, St. Paul, Minneapolis, Milwaukee, Kansas City, Indianapolis, Louisville and Toledo. Columbus and Kansas City are known to be interested in presenting pro football in their ball parks.

Bell, in Harrisburg to attend the inauguration of his brother, John C. Bell, Jr., as Governor of Pennsylvania, said he had written Lane's predecessor, Roy Haney, several months ago about the possibility of using association parks. He said the call for the meeting next week was the result of the correspondence.

NEW COLD WAVE HEADING EAST

(By The Associated Press) Air travel was curtailed, train and bus schedules delayed and motor traffic made hazardous today by fresh falls of snow, freezing rain, sleet, and fog over a wide section of the country.

A blanket of new snow covered many sections of New England, the midwest and extended into Oklahoma and in the Texas panhandle and other North Texas points. The falls in some cities were the heaviest of the winter and covered already slippery highways and streets. Temperatures dipped to near freezing in California and to near zero in Spokane, Wash.

Bitter cold struck the Dakotas and Minnesota today and the mercury dropped to more than 30 below zero at Bemidji, Minn.; near the 30 below mark at Pembina, N. D., and from 15 to 20 below in parts of South Dakota.

Federal forecasters said the cold wave would move eastward to the Atlantic coast and predicted lower temperatures for the north central area.

Plane flights in several cities were grounded due to the storm which struck in various forms. Fog and rain grounded air line flights at LaGuardia field in New York and air traffic at Chicago's municipal airport was at a virtual standstill Thursday because of snow. All commercial plane flights in Philadelphia and Pittsburgh were grounded because of fog and there were no flights out of Detroit this morning.

Today's Talk

By GEORGE MATTHEW ADAMS

THE LOW DAYS

I don't know why any of us should expect that all of our days should be clear, sunny, and devoid of difficulties. Depression of spirit is never permanent. Into our lives, as well as into our days "some rain must fall." Nature faces the same as we do. The summer, sunny day, is full of song and growth. But there come the cold and stormy days when even the sparrow huddles in his bush or tree, awaiting a better day. To keep an even keel, through all the vicissitudes of life is the important thing. Never to lose hope, always to bear in mind that better days are ahead, and that our experience is the experience of all, can keep this spirit of ours alive and seasoned with courage.

The low days always pass. Sorrow, disappointment, and every discouragement, have their brief hour, in time mellowed and smoothed over. We must school ourselves to look up, not down, forward, not backward. There are far more good days than bad days.

The late Damon Ruyon, came to a time when he thought he was through, finished, a has been. He had devoted most of his life, up to that time, to being a sporting writer. But an idea came to him. He wrote a story from his vast accumulation of observation and thinking. He sent it to a friend—and it was immediately accepted. A big check accompanied that acceptance—and a new career opened up, suddenly, like the breaking of sunlight into an otherwise dark day. From that time on he took his place among the finest of all story tellers.

The low days are usually the incubating days. Days of "growing pains." There was a time when Abraham Lincoln, also, thought he was through. He even contemplated suicide, so it has been recorded. He thought he was a failure. Then, suddenly, he was nominated for President of the United States! Those low days of his undoubtedly added to his humility, his patience, and his magnanimity, in the dark days of the Union that followed.

If we can face our low days, patiently, and without loss of faith, we can dismiss all fear of the days ahead. They will already have been arranged for us.

Tomorrow Mr. Adams will talk on the subject: "The Haunting Past."

ADVICE TO A YOUNG WIFE

If he starts to talk to mother and the pie she used the bake;

If you hear him sadly sighing for a chocolate layer cake;

If the food his stomach's craving, as he likes it you would cook,

You can learn how mother did it, just by following the book.

If you've ventured into marriage without being even-wise,

To discover that your husband's fond of mince and apple pies;

If upon his face at mealtimes there's a disappointed look,

You can win him back to smiling just by following the book.

If your mother didn't teach you all the arts of pot and pan,

And you find you have to feed him if you want to please a man,

There are volumes for that purpose. Keep one handy on a hook.

You can make those apple fritters, just by following the book.

CONGRESSMEN PLANNING ACTION TO CUT STRIKES

Washington, Jan. 3 (P)—Members of Congress from both major parties opened a drive today to prevent strikes which affect the public health or safety including coal strikes.

The drive faces strong opposition. All proposals to compel unions and employees to settle their disputes short of walkouts or lockouts are being fought not only by organized labor but by wide segments of industry as well.

Rep. Howard Smith (D-Va.) said he is ready to introduce a lengthy labor bill this afternoon after the session opening formalities of the 80th Congress are out of the way in the House.

One provision is designed to force arbitration of disputes in the most essential industries.

Another would outlaw the closed shop. And a third would forbid collective bargaining on an industry-wide basis—such as autos and steel, both of which suffered crippling strikes last year.

Smith said in an interview before the session started: "the public interest must be paramount. I think it's a mistake to pay too much attention to the special desires of either labor or industry."

Court Told How Nazis Slew Nuns

Hamburg, Germany, Jan. 3 (P)—The prosecution of Ravensbrück concentration camp personnel on war crimes charges closed Thursday with reading of a deposition reporting that drunken guards once shot 14 nuns in cold blood.

The deposition was by Vera Salvart, a pretty brunette internee who is among the 16 defendants.

She said she was going about her assigned task of knocking gold teeth from the mouths of executed inmates when a guard tried to kiss her, threw her on a bed and twisted her arm. Hardly had she fought him off, she said, when other guards brought out the nuns and shot them. "It was a horrible picture," she said.

The Christmas party held last Tuesday by the Lions club for all the children of the community was a success. The program started with a free movie at the Gem theatre for all children under fourteen years. After the movie, lunch was served at the firemen's hall. The Lions club prepared the soup and it was served by members of the Woman's club, the Boy Scouts and the Girl Scouts. After lunch the children gathered on the square to wait the arrival of Santa Claus who at 2 o'clock made his appearance in a jeep. He rode all over town before finally dropping off at the square where a large platform had been placed for his use to distribute gifts to the children who passed by him. Every child received an orange, two chocolate bars and most of the children received an extra gift, such as a coloring book, crayons, picture book, ball, etc. Santa Claus reported at least 1,000 children had passed by him for their treat, the largest crowd of children ever to gather on such occasions.

To Give "Shudder Show" At Majestic

Dr. Neff, who launched Jimmy Stewart's career which took him to Hollywood stardom, will bring his "shock, shudder and shiver" show, "Madhouse of Mystery" to the stage of the Majestic theatre for a mid-night performance next Tuesday. The company of thrill-makers, including lovely models, will appear on the stage and will be followed by a movie, "Body Snatchers."

On his visit here, Dr. Neff has promised he will give free advice to aspiring young Adams county boys and girls on how to become great magicians.

Neff was the first to discover

Jimmy Stewart's talents when both were attending school in Indiana, Pa. When Neff took up magic and started presenting high school performances there and later at State College, Pa., Stewart became his first assistant and helped the magician work out some of his most unusual illusions.

Stewart is now a clever magician in his own right and magic is his sparetime hobby. Other Hollywood stars who are amateur magicians and pupils of Dr. Neff are Orson Welles, Edgar Bergen, Gene Autry, Chester Morris and Mickey Rooney.

REAL ESTATE FOR SALE

Located at Aspers, Menallen Township, along the macadam road leading from Aspers, to Route 34 at Pitzer's Corner. Eight large building lots, being part of a larger tract of which eleven have been previously sold. Electric pole line runs along the highway and the main line of the Aspers Water Co. runs through each lot. Also adjoining is a tract approximately 22 acres, the larger portion of which had been used for breeding gold fish and the remainder in pasture land with O'Possum creek running the entire length. This tract would be very suitable for a building project or is good for crop purposes.

Will sell separately or as a whole. Aspers is the manufacturing center of Upper Adams Co., some of the Plants now enlarging and all badly in need of additional help. New home would be much in demand either for sale or rent.

Also offer at a sacrifice price a six acre tract of mountain land in Franklin Township adjoining lands with the Andy Kane and Blaine Bushey farms.

Desired information can be obtained by writing to me at my late residence.

Coughs From Colds Can Cause Sleepless Nights

But adults can't expect real results from the same sweet syrupy concoctions that you'd give to a child. When you want to throw off a bothersome cough from a cold you've just got to have a real cough medicine—then try good old Bron-chu-line Emulsion.

If you are willing to pay a little more for real results and want the best, get a bottle today and notice how the first dose takes right on and gives you real relief from the coughing and soreness.

SAYS DUFF HAS 'HIT THE MARK' ON 'CHISELING'

By MARTIN BRACKBILL
Harrisburg, Jan. 3 (AP)—Governor-elect James H. Duff will find his surmise of relief chiseling has "hit the mark" if he "consults the files compiled by investigators working out of the auditor general's department," Rep. H. G. Andrews said today.

The Democratic leader of the state House of Representatives made his comment in connection with Duff's announcement he will have "a complete case check" made of public assistance rolls when he becomes governor.

Duff said the fact relief expenditures for two years will probably reach \$125,000,000 by the end of this biennium to equal state grants for education calls for "a complete re-examination and re-appraisal of the whole situation."

The Public Assistance Department already has announced its funds will not last beyond January 31 and has estimated a deficiency appropriation of at least \$23,000,000 will be necessary to carry the program through to May 31. The 1945 Legislature appropriated \$88,000,000 and claim adjustments accounted for several more millions.

"The probable deficit in the appropriation for public assistance," declared Andrews in a statement, "is a credit to the department from the standpoint of administration but it is another evidence of the fact the Martin administration was consistently unable to handle figures."

He explained the credit to the department comes from its efforts "to increase relief allowances to meet the increased cost of living."

Noting the Democratic state committee predicted as long ago as March 22, 1946, that there would be a relief deficit "in the neighborhood of \$30,000,000," Andrews added:

"The facts are that the department knew all along it was heading into a deficit. The county executive directors knew it too but were cautioned not to direct attention to the figures lest the governor be embarrassed."

"Governor-elect Duff has spoken about possible chiseling on the part of persons receiving public assistance."

"If the governor-elect will consult the files compiled by the investigators working out of the auditor general's department, he will find startling proof that his guesses of possible chiseling have hit the mark."

Andrews said "these errors are, of course, the fault of local administration, and in some counties x x x, possible political pull" and added that "due to the lax methods on the part of some county boards, the wonder is that there has not been more chiseling."

outlets. Another is the fact that most Adams county farmers are good managers of their establishments and are becoming better managers.

Watching Soil Fertility
"There are sections where the all out production of the war years depleted the soil of farms, but in general Adams county farms appear to be in as good if not better shape than they were in pre-war years."

"The use of larger quantities of both lime and fertilizing materials by farmers in the county in general has resulted in the growing of more legume forage crops and also has resulted in higher yields per acre. In addition many farmers have given careful consideration to good crop rotation systems and have rearranged their fields so as to reduce soil erosion. And thus, even though they were faced with all out production they have been able to at least maintain and in some instances they have been able to improve the producing ability of their farms."

"This coming year will be marked by greater interest in scientific breeding to increase the quality of the dairy herds in the county and there is a possibility that such a program may be established in the county during 1947."

"There is also an opportunity to increase the productive hours of farm labor largely through giving more thought to the farm wood lot."

Weather Troubles
"With the demand for timber and pulp wood continuing through 1947 the proper farming of the woodlot may help in giving farm labor a year around job on the farm."

"With a slight increase in the number of beef cattle on feed as compared with a year ago, the number may increase during 1947 to the more normal figures of previous years. The slight decrease in poultry production in 1946 may continue into 1947 if the present feed price as compared with poultry prices continues."

"Adams county farms may suffer more from weather conditions in 1947. The extremely long growing season this year, with no killing frosts until November, has placed both winter grain and fruit trees in a dangerous position. Winter grains seeded at what were normal times now have excessive growth which may be detrimental to the crop through the winter. Similarly the fruit trees, due to the long growing season, have entered the winter in a tender and succulent condition which makes them more liable to severe winter injury."

Specialization Coming
"There was a noticeable increase in the Japanese beetle population throughout the county this past year due to the favorable weather and as a result, unless something unusual occurs we can expect the Jap beetle to be more of a problem next year. "The European corn borer in-

festation will also probably increase next year, as it did in 1946. Last year was marked by the severest outbreak of potato and tomato blight in years with the crop reduced possibly by 60 per cent. As a result most farmers are giving more thought to spray schedules for potatoes and tomatoes next year."

"While 1947 will be marked only by a trend in this general direction, there is one long range prediction that, according to present indications, can be made, and that is the time is rapidly approaching when more highly developed specialization will be required for a farmer to stay in business, whether it be poultry, fruit, vegetables or whatever. When the big let down in prices comes only the specialist will be able to make money."

Out of their WISDOM

WAS LIT THE FLAME OF Freedom!

THE DECLARATION OF INDEPENDENCE and Constitution were written by men of wisdom and experience. Thomas Jefferson left a library of 10,000 volumes, and read the books of great thinkers in six or seven languages. James Madison was a student of theology, and was one of the wisest men of the Colonies. Benjamin Franklin possessed a great store of common sense, experience and culled wisdom of the ages, through reading. He is credited with starting America's first circulating library.

Wisdom of the ages lights the way for modern scientific and medical research. Many years of study, experience and organized effort made possible America's fine Medical Schools, high standards of Medicine, Dentistry and Pharmacy. Keep them free of bureaucratic hands so they may continue to work toward SOUND extension of health services.
